“

The Americas LNG Summit and Exhibition is a great opportunity to showcase to the world the wonderful work that the LNG industry is doing – creating jobs and economic opportunity across America, and supplying secure and affordable energy to our neighbours and allies. Here in Louisiana, we’re proud of the role that we’re playing to keep this industry on an upward trajectory.

If you’re a producer or a buyer of LNG; if you’re looking for cutting edge technologies and solutions; if you’re focused on upstream, midstream or downstream operations, this is the event for you.

I look forward to seeing you all in Lake Charles, Louisiana, October 13–15, 2026.

GOVERNOR JEFF LANDRY
57th Governor, State of Louisiana

THE PREMIER MEETING PLACE FOR LNG LEADERS IN THE AMERICAS

As the world’s largest LNG supplier, the US plays a critical role in global energy security. With deep operational expertise, significant investment and abundant natural gas resources, the Gulf Coast remains at the heart of the international LNG industry.

The 23rd Americas LNG Summit & Exhibition returns to Lake Charles, USA, on April 25–28, 2028, bringing together energy leaders from across the global LNG value chain. With 5,000+ attendees, the event will explore the strategic, commercial and technical priorities shaping the next chapter of LNG — from project development and infrastructure to security of supply, investment, technology and long-term global partnerships.

Americas LNG provides a powerful platform for the industry to connect, collaborate and advance the future of LNG from the heart of the US Gulf Coast.

LAKE CHARLES — THE EPICENTER OF GLOBAL LNG

Lake Charles and Southwest Louisiana sit at the center of the US LNG export industry. With multiple facilities operating along the Gulf Coast, the region has become one of the most concentrated LNG export hubs in the world.

This strategic energy corridor connects abundant US natural gas supply with growing global demand, supplying LNG to markets across Europe, Asia, Latin America and beyond.

LNG EXPORTED FROM LOUISIANA REACHED MARKETS ACROSS MULTIPLE REGIONS IN 2026

In partnership with regional stakeholders, the Americas LNG Summit & Exhibition brings together global industry leaders to explore the investments, technologies and partnerships shaping the next phase of LNG growth.

~90 MTPA

LNG export facilities across export terminals in Southwest Louisiana

48%

of U.S. LNG export volumes originate from SW Louisiana

4

Major LNG export facilities operating or in advanced development across the Lake Charles region

\$70B+

LNG infrastructure investment across the regional LNG value chain

STRATEGIC CONFERENCE

WITH THANKS TO OUR EXECUTIVE COMMITTEE

The Executive Committee provides strategic guidance for the America LNG Summit & Exhibition. Bringing together senior industry leaders, the committee helps ensure the event reflects the sector's most pressing priorities, encourages meaningful dialogue and delivers lasting value for the global LNG community.
