AMERICAS LNG SUMMIT & EXHIBITION

Welcome to the Americas LNG Summit & Exhibition

A visitor's guide to the exhibition, networking and show-floor content.

We are pleased to welcome you to the 22nd Americas LNG Summit & Exhibition, taking place October 13-15, 2026, in Lake Charles, Louisiana.

The event brings together the companies, technology providers, contractors and industry professionals supporting LNG development and operations across the Americas.

As a visitor, your first priority is the packed exhibition floor, showcasing equipment, services, innovation and technical expertise across project delivery, operations, maintenance, safety, digital technology and workforce development. This is your opportunity to compare suppliers, speak directly with technical experts and make useful industry connections.

You can also attend free show-floor content at the Innovation & Workforce Stage, including practical sessions on current challenges and technologies, and the Leaders of Tomorrow program, which brings forward emerging talent and new ideas.

Use this planner and the Americas LNG event app to identify exhibitors, build your schedule, navigate the floor and connect with other attendees.

Whether you are sourcing a supplier, researching a technical solution, developing your career or keeping up with the industry, we hope you leave with useful information and valuable new contacts.

We look forward to welcoming you to Lake Charles.

Best regards,

Rich Mackintosh

LNG Portfolio Director

Americas LNG Summit & Exhibition

THE AMERICAS LNG MARKET COMES TO LAKE CHARLES

**AMERICAS
LNG SUMMIT
& EXHIBITION**

The **22nd Americas LNG Summit & Exhibition** brings the LNG value chain together in Lake Charles, at the center of the US export industry. Project developers, operators, delivery partners, buyers, technology providers and policymakers meet to discuss the issues affecting investment, construction and operations.

Visitors can explore the exhibition and meet more than 300 suppliers across project delivery, operations, maintenance, safety, digital technology and workforce development. The exhibition floor is the place to compare solutions, see equipment and speak directly with technical experts.

Free show-floor content includes the **Innovation & Workforce Stage, technology and product showcases, and the Leaders of Tomorrow program**. The Strategic and Technical Conferences run alongside the exhibition for registered delegates.

YOUR FREE VISITOR PASS INCLUDES

- Full access to the exhibition floor
- Innovation & Workforce Stage sessions
- Technology and product showcases
- Leaders of Tomorrow presentations
- Networking with exhibitors and industry peers

**REGISTER FOR A FREE
VISITOR PASS**

americaslngsummit.com/forms/visitor-registration/

**UPGRADE TO A
DELEGATE PASS**

EXHIBITION IN NUMBERS

THE WORLD'S FASTEST-GROWING LNG EVENT

5,000+

Attendees from across the LNG value chain

200+

Exhibiting companies

150+

Strategic, technical and show-floor speakers

40+

Countries represented

Event timings and checklist

EXHIBITION OPENING TIMES

Wednesday, October 14
9:00 AM to 6:00 PM

Thursday, October 15
9:00 AM to 5:30 PM

BEFORE YOU TRAVEL

01

Register and save your badge

Keep the confirmation email and badge on your phone.

02

Download the Americas LNG app

Activate your account with the email used for registration.

03

Shortlist exhibitors and sessions

Use the floor plan and stage agenda to build a realistic route.

04

Plan conversations before arrival

Use the directory and connection tools available for your badge type.

Venue: Event Center Lake Charles, 900 Lakeshore Drive, Lake Charles, LA 70601

YOUR CHECKLIST

Registration, travel and arrival information for the Americas LNG Summit & Exhibition.

DELEGATE REGISTRATION

Scan to register

01 REGISTER IN ADVANCE

Complete the online form before you travel. Upload a clear, recent photo for your badge. One form accepts up to five delegates.

Group bookings:
delegates@americaslngsummit.com

02 BOOK ACCOMMODATION

Once you register as a delegate, you can access preferential accommodation rates at **L'Auberge Casino Resort** and **Golden Nugget**. Use the hotel booking link in your registration confirmation email to reserve your room. Rooms are limited, so we recommend booking early.

For group bookings or any other accommodation questions, contact:
info@americaslngsummit.com

03 PLAN YOUR JOURNEY

Lake Charles has regional air access and road connections from Houston and New Orleans. Check the best route for your arrival and allow time for the onward journey.

Event dates: October 13-15, 2026

04 ARRANGE LOCAL TRANSPORT

Street taxis can be difficult to hail in Lake Charles. Download Uber or Lyft before you travel and use the apps for airport, hotel and venue trips.

Book journeys early at busy times.

05 CHECK VISA REQUIREMENTS

Contact your local embassy and allow enough time for your application. If you need a visa invitation letter, contact the event team.

info@americaslngsummit.com

06 KNOW THE VENUE

EVENT CENTER LAKE CHARLES

900 Lakeshore Dr
Lake Charles, LA 70601

Lakefront location near the boardwalk and Bord du Lac Marina.

REGISTER AS A DELEGATE

americaslngsummit.com/forms/delegate-registration/

Register before arrival and use the same email address when you activate the event app.

MAXIMISE YOUR EXPERIENCE AT THE EVENT

Share that you're attending

A quick LinkedIn post helps clients, partners and colleagues find you before the exhibition. It also gives people in your network time to register.

WHY SHARE

- 1 **Let people know when you will be in Lake Charles**
- 2 **Arrange useful meetings before the floor gets busy**
- 3 **Help the right people in your network discover the event**

HOW TO POST

CLICK HERE <https://app.ingo.me/q/4swwt>

or

- 1 Download your personalized 'I'm attending' graphic
- 2 Add a short message and tag the people you would like to meet
- 3 Post on LinkedIn with #AmericasLNGSummit

SUGGESTED LINKEDIN COPY

I'm attending the Americas LNG Summit & Exhibition on October 13-15, 2026 in Lake Charles, USA. To join me click here: [Americas LNG Summit & Exhibition](#).

The 22nd Americas LNG Summit & Exhibition will bring together energy leaders to explore the importance of LNG for economic growth, energy security and the global energy transition. Drawing on more than two decades' pedigree as a valued meeting place for industry leaders, this year's summit takes place at a time of much anticipated growth and investment in the sector, particularly following major shifts in US LNG policy.

As the world's largest LNG supplier, the US plays a crucial role in fostering bilateral partnerships, supporting emerging economies, and advancing sustainable growth. The event will take place in Lake Charles, Louisiana - the epicenter of US LNG, and a vibrant hub of manufacturing expertise.

AMERICAS LNG SUMMIT & EXHIBITION

OCTOBER 13-15, 2026
CENTER LAKE CHARLES,
USA

Use the app in four steps

Set up your profile before arrival, then use the app to organize the people, companies and sessions that matter to you.

01

LOG IN

Use the same email address you used to register.

02

COMPLETE YOUR PROFILE

Add a photo, job title, company, biography and contact details.

03

FIND AND CONNECT

Search people and companies. Add a short personal message to connection requests.

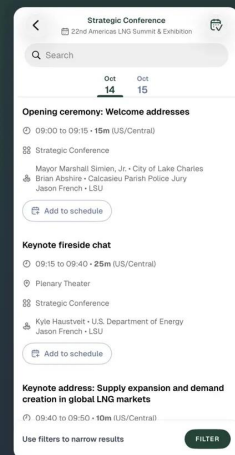

04

BUILD YOUR DAY

Save relevant sessions and manage accepted meetings and availability in My Event.

MY SCHEDULE

Customize your
schedule

Save sessions and keep accepted
appointments together in one place.

VISITOR APP USER GUIDE

Need help? Open My Profile, then Resource Center, to
find the Visitor App User Guide.

Meeting and conference
access depends on badge
type.

Plan your visit around the exhibition floor

Start with the stands you need to visit. Build networking around those meetings, then add free show-floor sessions that support your priorities.

PLAN YOUR DAY IN THIS ORDER

1 VISIT THE STANDS

Compare suppliers, products and technical solutions. Build a shortlist before you arrive.

2 BUILD YOUR NETWORK

Meet technical experts, industry peers and potential partners on the floor and in the app.

3 ADD FREE FLOOR CONTENT

Fit Innovation & Workforce Stage sessions and Leaders of Tomorrow around your stand visits.

PRODUCTS, SERVICES AND EXPERTISE ON THE FLOOR

Examples from current exhibitor product uploads. Use the event app for the latest searchable listings.

LNG processing & liquefaction

Small-scale LNG, air separation, CO2 capture and modular process systems

Engineering, construction & infrastructure

Marine works, deep foundations, civil work, structural steel and concrete

Operations, maintenance & reliability

Bolting, pipe testing, asset care, mechanical integrity and sealing

Safety, detection & emergency response

Gas detection, alarm and control, PPE, rescue and fire safety

Digital engineering & automation

3D asset visualization, reality capture, smart documents and controls

Electrical, power & industrial equipment

Electrical services, backup power, valves, pumps, fans and transformers

**200+ EXHIBITORS
5,000+ ATTENDEES
12 HOURS OF FREE
FLOOR CONTENT**

Networking plan

BEFORE ARRIVAL

Complete your profile and add a clear photo.

Shortlist the companies and people you want to meet.

Send a personalized connection request where your badge access allows it.

ONSITE

Leave space between meetings for travel across the floor.

Save useful contacts in the app as soon as you meet them.

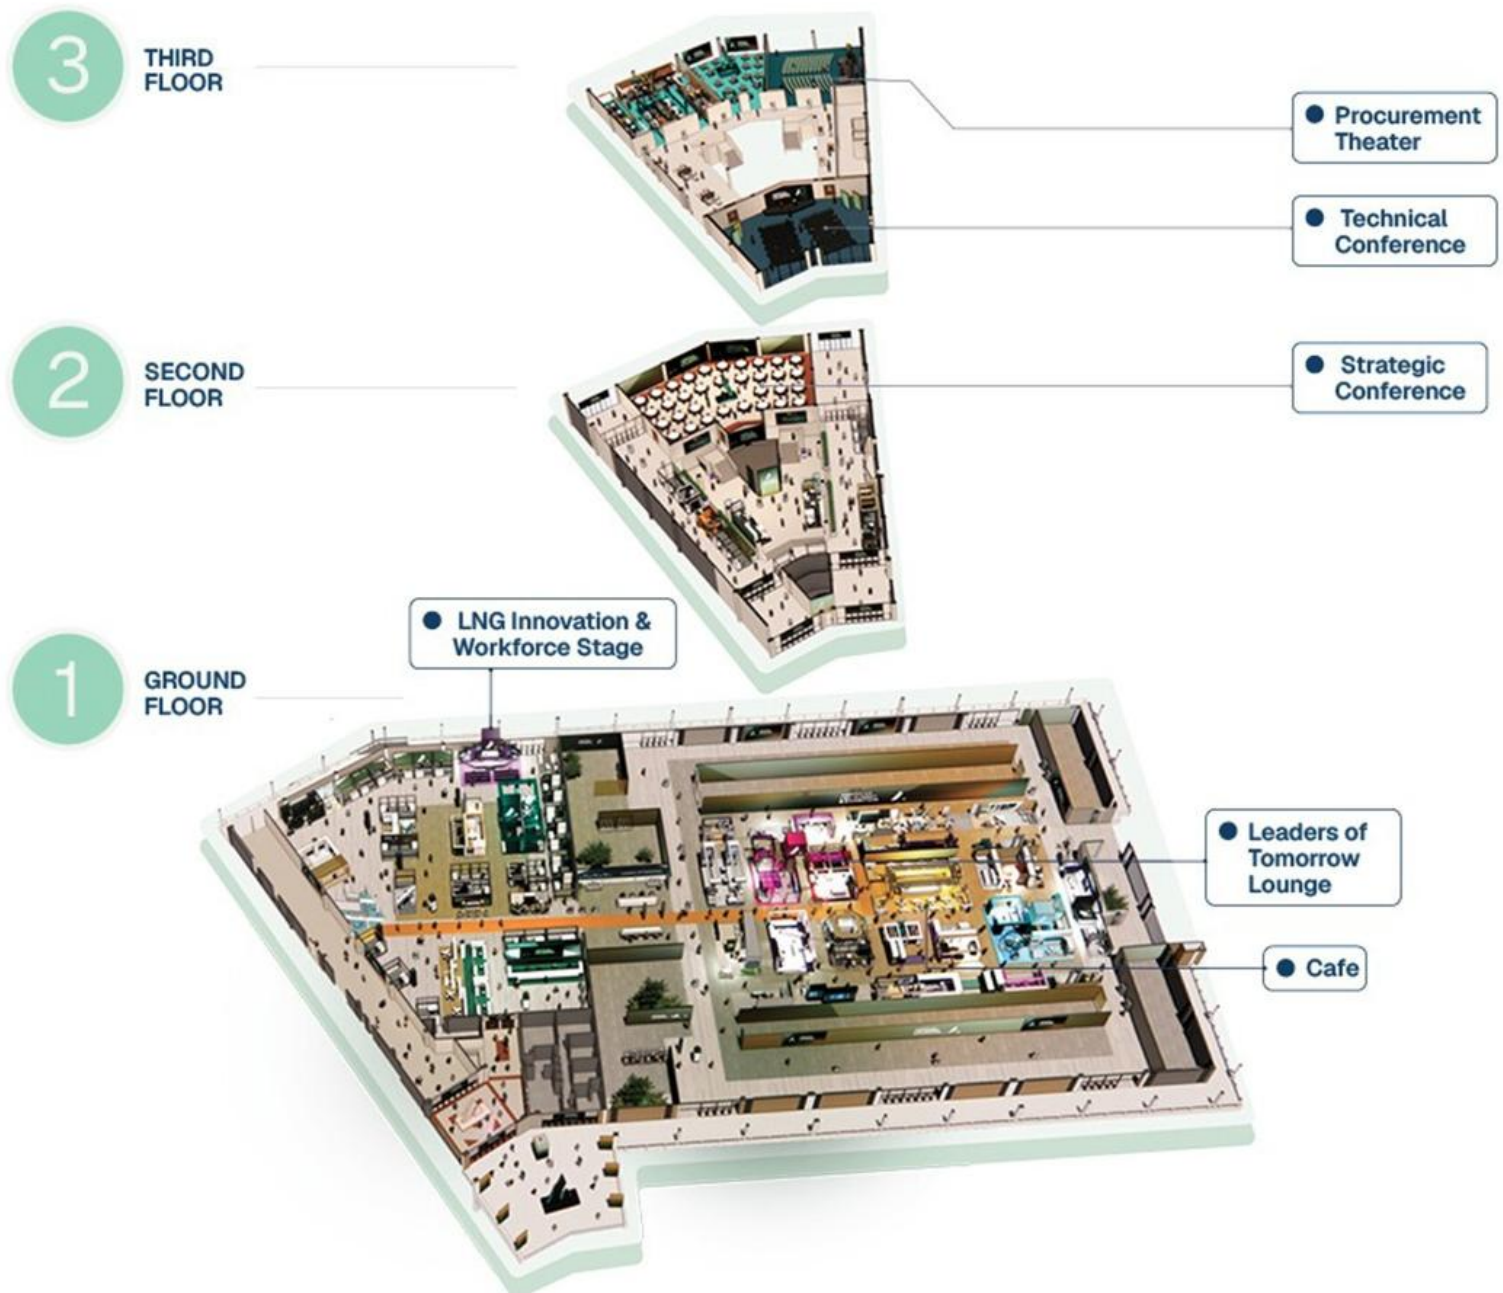

Write one short note after each conversation so your follow-up has context.

A focused list of ten useful conversations will deliver more value than trying to cover every stand.

Exhibition floor plan

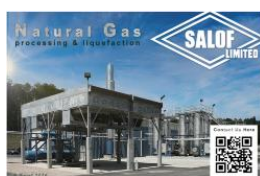

The visitor pass provides access to the full exhibition floor. Use the app for the latest interactive version and stand search.

Products and services you can find on the exhibition floor

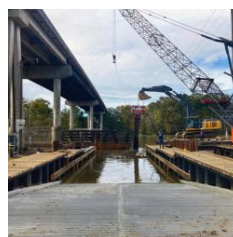

The exhibition brings together equipment, technology and specialist services used across LNG project delivery and plant operations. These examples show the range already listed by exhibitors.

PROCESS TECHNOLOGY

Gas processing and liquefaction

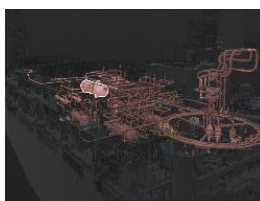

Modular equipment for natural gas and renewable gas applications.

PROJECT DELIVERY

Marine and waterfront construction

Construction support for industrial, infrastructure and waterfront projects.

DIGITAL ENGINEERING

System visualization

3D views that show how equipment, documents and assets connect.

MAINTENANCE TOOLS

HYTORC Lightning Pump

A battery powered bolting pump with automatic control and data capture.

GAS SAFETY

GD10P gas detector

Infrared gas detection for fast and stable hazard monitoring.

PIPE TESTING

GripSafe XL

A large bore pipe plug system designed for pressure testing.

Use the Americas LNG app to search the current exhibitor, product and stand listings before you arrive.

POSTERS

4 RESEARCH
THEMES

Student finalists present practical research and ideas to an industry judging panel on the Innovation & Workforce Stage.

POSTER COMPETITION

The program connects university and technical college students with companies across the LNG value chain. Visit the poster gallery, hear the finalists and meet emerging technical talent.

FOUR THEMES

01 Operational process and
technical innovation

02 Energy systems and
innovation

03 Business, policy and
societal impact

04 Environmental
sustainability

STRATEGIC CONFERENCE THEMES

The two-day Strategic Conference brings senior leaders together to discuss the market, policy and project issues affecting LNG investment and delivery across the Americas.

Working with the Executive Committee and stakeholders across the LNG value chain, the program centers on six themes:

GLOBAL RELATIONS, SECURITY AND TRADE

Strengthening alliances and enabling growth in an increasingly complex geopolitical landscape.

MAINTAINING GLOBAL SUPPLY STABILITY

Responding to changing supply, demand and trade dynamics while managing project risk.

NEW INFRASTRUCTURE AT SCALE AND SPEED

Examining infrastructure needs, supply capacity and the demand pressures affecting project delivery.

PROJECTS, PINCH POINTS AND PERSONNEL

Securing supply chains and managing costs while addressing workforce shortages, recruitment and retention.

COMMERCIAL INNOVATION AND BUSINESS OPPORTUNITIES

Finding new markets, structuring finance and identifying partnerships that can support LNG growth.

ECONOMIC AND COMMUNITY BENEFIT

Creating long-term local value through employment, skills development and stronger community partnerships.

ACCESS THE STRATEGIC CONFERENCE

Upgrade to a Strategic Conference Pass or All Access Pass.
